

Heritage Politics: Shuri Castle and Okinawas Incorporation into Modern Japan, 1879-2000 (AsiaWorld)

Heritage Politics: Shuri Castle and Okinawas Incorporation into Modern Japan, 1879-2000 is a study of Okinawas incorporation into a subordinate position in the Japanese nation-state, and the role that cultural heritage, especially Okinawas iconic Shuri Castle, plays in creating, maintaining, and negotiating that position. Tze May Loo argues that Okinawas cultural heritage has been and continues to be an important tool with which the Japanese state and its agents, the United States during its 27-year rule of the islands (1945-1972), and the Okinawan people articulated and negotiated Okinawas relationship with the Japanese nation state. For these three groups, Okinawas cultural heritage was a powerful way to utilize the symbolism of material objects to manage and represent the islands cultural past for their own political aims. The Japanese state, its agents, and American authorities have all sought to use Okinawas cultural heritage to control, discipline, and subordinate Okinawa. For Okinawans, their cultural heritage gave them a powerful way to resist Japanese and American rule, and to negotiate for a more equitable position for themselves. At the same time, however, this book finds that Okinawan strategies to deploy their cultural heritage politically are deeply intertwined with, and to a significant extent enabled by, precisely these Japanese and American attempts to govern Okinawa through its heritage. This examination of the political role of Okinawas cultural heritage is a window into a wider process of how nation-states and other political formations make themselves thinkable to the people they rule, how the ruled seek out spaces to make claims of their own, and how cultural pasts, once made usable, are implicated in these processes.
